

BARCELONA QUARTERLY REPORT FROM GARDUQUES (JULY-SEPTEMBER 2024)

Greetings to the PAMI Board, may God's peace and blessings be with you all. This past few months the Buhang church experience some hardships in terms of bible studies because some of our contacts in Buhang refused to attend gatherings. Some of them were making excuses just to avoid listening to the word of God. They also stop attending church, but maybe it is just one of God's way to test their faith in Him. However, just this past weeks, sis. Minerva's son and nephew had just return home from almost half a year of working in Ilocos. They start attending Sunday service again.

Meanwhile, the feeding in Cagang is doing great, the feeding is still ongoing and the number of children is increasing. The contacts in Cagang is also increasing as well because some of the children's parents decided to stay much longer when ptr. Pio started sharing.

Ps: We sincerely apologize for the pictures. Some of these was taken just this month of September, for the reason that sister Jovie's phone have been reformat.

Family Update:

Just this end of July opening of classes, The kids started going to school again. Our son Kiel started his new journey in secondary education while Faith is in her fourth year in college. As time goes on, expenses also add up. Thank God because sometimes he uses people who also provide financial support for Faith's tuition and research expenses. It's just been a little difficult now since Zyeo's grandparents on father side stopped giving financial support. We continue to pray that God will touch their hearts and remember their responsibility to the child. Just this August, ptr. Pio got in a vehicular accident. Praise God that ptr. Pio didn't get any serious injuries. Thank you for your prayers and with God's mercy, ptr. Pio's had a fast recovery.

Prayer Requests:

- Church growth and more contacts in bible studies
- Church lot and building
- Supporters and Missionaries, good health and family protection
